Nevada CAN: Nevada COVID-19 Aging Network

Nevada CAN is focused on maintaining the quality of life for the 454,221 homebound elders in Nevada. Keeping elders safe from exposure to the virus, while ensuring they are well-supplied, have access to medical and social services, and remain free from isolation is our top priority.

In this unprecedented time many people who have never had to ask for help may have to turn to others for help. We want to make it easy for you to find and ask for the things you need to keep yourself safe at home.

Nevada CAN will connect you to a local provider, volunteer, or government agency to meet your needs. Just complete this form and tell us what you need.
Coronavirus Updates and Information

Many organizations across the state of Nevada are working to ensure Nevadans have access to accurate and timely information. The links below are credible sources of information.

Nevada’s Provider Network Information

The unprecedented aging services crisis caused by the
COVID-19 pandemic has shifted into high gear across the entire Nevada Aging Services Network.

Nevada’s most vulnerable elders have relied on our Network for years. Now, with Elders across the state being asked to isolate at home the demand on our systems will only increase as we work together to maintain the quality of life of the 454,221 homebound elders in Nevada. It is essential that we collaborate and coordinate services across the state and support one another in meeting the needs of our Elders.

Volunteer or Donate

Thank you for your willingness to volunteer or donate. Nevadans can help one another through this Coronavirus outbreak in many ways.

1. Donations are needed to support the daily needs of our most vulnerable seniors. Food, diapers, pet food, toiletries and medical supplies are all needed.

2. Volunteers are needed to support our seniors during
this time of self isolation.
